MOSDAY, March 29.—P. M.

The share speculation at the Stock Exchange to-day presented little or nothing calling for comment. After an early effort to give to the market prismatic hues, the movements generally were dull and uninteresting, and resulted in lower prices. The total business amounted only to 107,471 shares, and the greatest declines were made before the stringency of the money market was developed, so that cannot be set up as the cause either for the dullness or the fall in prices. In fact, prices were rather strengthened after money became worth 1½ per day and interest, as it was a matter of necessity that they should become stronger.

The exceptional movement in Central and Hudson was continued, and 13,100 shares are recorded as selling at 132½@132½@132½@132½. Late a Shore and Erie drooped rather than declined, while Michigan Central remained steady at 92. Chicago, Burlington and Quincy yielded 2½% per cent to 143½, but the granger stocks generally were strong. The notably weak stocks were Houston and Texas, Nashville, Chattanooga and St. Louis, the Northern Pacific, Hannibal and St. Joseph, Chicago, St. Louis and New Orleans, Ohio and Mississippi, the Elevated Railroad stocks, and Pacific Mail. The coal stocks alternated between weakness and strength a dozen times during the day, finally closing with prices 2½ per cent lower than on Saturday. Western Union fell to 104½, but closed at 103½. The market closed dull and unsettled.

The final changes from the closing prices Saturday are as follows:—Deichols—Lake Erie and Western, 1½; Burlington, Cedar Rapids and Northern, Cleveland and Pittsburgh, Chicago and Northwestern, Illinois Central, Central of New Jersey, Erie, Ontario and Western, Iron Mountain, and Wisconsin common and preferred, each 3½; Elevated Railroad stocks, and Pacific Mail. The coal stocks alternated between weakness and strength a dozen times during the day, finally closing with prices 2½ per cent lower than on Saturday. Western Union fell to 104½, but closed at 103½. The market closed dull and unsettled.

The foreign exchange market is still dull, and bankers to-day paid rates 1½ per cent higher than the 2½. The explanation of the change is found in the fact that London money is easy and in New York it is straining. The revised quotations are as follows:
